

State Institutional Approval Quick Chart

Institutions must comply with state requirements in states where their students are located. State institutional compliance may be obtained by individual state by state compliance or for many distance education activities, by participation in reciprocity through the State Authorization Reciprocity Agreements (SARA).

Institutions that choose not to participate in reciprocity, are located or offer an activity in a state or territory that is not a member of SARA, or offer activities outside of reciprocity, must review and comply with all state requirements, if any, where their students are located while participating in an online course, field experience, or other activities.

The chart below provides a start to the institutional research for **ALL state requirements for institutions seeking state by state authorization** by offering a snapshot of contacts for the state higher education agencies and provides notes about the status of oversight of online courses in each state.

Additionally, the chart offers SARA participating institutions direction to **specific state closure laws that a state chooses to enforce** per compliance with 34 CFR 668.14(b)(32)(iii) (effective July 1, 2024). Links to requirements will be added as states determine applicability in their state **for SARA participating institutions**.

When reading state statutes and regulations, consider these tips from the American Bar Association (ABA): [Five Tips for Reading Legislation and Code](#).

SAN will review this list on a periodic basis. If you want to let us know of any issues you have using these links, please let us know [here](#). **(Last reviewed 01/06/25)**

Please note the following:

- These determinations were made with conservative analysis based on basic research of agency websites and state regulation/statutes addressing accredited institutions.
- Please note the date above for timeliness of the information. We will review periodically and make changes as we become aware of the need.
- The quick chart was developed to provide swift direction for information to review state institutional approval requirements.
- The quick chart should not be considered to be or used as legal advice.
- SAN cannot verify the security of the website links offered in this resource.
- Institutions should review requirements to determine applicability to the activities of the institution.

- Find more detailed information for each state, please review [The State Authorization Guide](#).
